

Virtual SAI Provider

Hi, Special Education Leaders:

I hope this message finds you safe and healthy. With the current school closures, we are offering tutors to provide Supplemental SAI to students and can work with families to set up scheduling in the home setting. All of our tutors are trained on how to work with students with disabilities and have extensive training in Applied Behavioral Analysis (ABA). We can offer enrichment activities and materials for all students with IEPs and can work with district leaders and families to set a schedule during this difficult time. In addition, If there is a need for compensatory services (SAI) for students with IEPs, please do reach out so we can work with you and families to set this up. We have a team of educators who are ready to start services immediately.

We are also offering virtual trainings for teachers and support staff who may be working remotely during this time. These lessons will focus on setting up classroom wide behavioral supports, principles of ABA, and how to keep students engaged with a routine and academic rigor. We can also customize online trainings based on individual need.

We want to work with districts to support students and families during this time. Please do reach out if you have any questions or would like any additional information.

In Partnership,

**Neena Bhathal, M.A.**

**Educational Program Director**
