

CASH FLOW ADVANCE PROGRAM 2022-23

CASH ADVANCES FOR NEW CHARTERS

As a result of the state apportionment process, charters in their first year with the Charter SELPA will not generate state special education funding until February of 2023. Although CDE delays funding, a charter school is still responsible to provide special education services to students.

In order to mitigate the fiscal impact of this delay in first-year cash flow, El Dorado Charter SELPA has available a low-interest cash advance to charters new to the SELPA in 2022-23.

- Charters in their first year of membership in El Dorado Charter SELPA are eligible.
- Advance requests must be received by **Friday, October 7, 2022**.
- Advances will be made from the available balance in the Rate Protection Pool.
- 25% of estimated annual state funding (net of administrative fee and Rate Protection Pool contribution) is projected to be available for advances.
