Presented by the South County SELPA Alternative Dispute Resolution (ADR) Team and Equity, Disproportionality & Design (ED&D) Team

School Psychologist Academy: “Tips for IEP Success: Ensuring Equitable Outcomes for ALL Students”

As special education leaders, school psychologists use data to ensure equitable outcomes for ALL students inside and outside of the IEP process. Data use is a key component essential for success. As a result of our session, school psychologists will gain a deeper and practical understanding of data literacy, disproportionality, best practices for legally compliant IEPs, and tips for effective communication.

Intended Audience: School Psychologists

Learning Objectives:

- Use data as a tool for promoting equity
- Define disproportionality and learn practices that reduce/prevent disproportionality
- Learn about special education legal requirements to create defensible IEPs
- Increase effective communication and foster positive relationships
