

October 3, 2023

Good afternoon,

Effective 2023-24, both the State and Federal funds for Educationally Related Mental Health Services (ERMHS) will be allocated directly to LEAs. The CDE calculates this funding based upon each unit of Average Daily Attendance (ADA) for the current fiscal year as of the second principal apportionment.

Member LEAs should expect a 2023-24 Grant Award Notification (GAN) from the CDE for Resource 3327. Like other GANs, the Federal Mental Health GAN requires a wet signature from the approving official, and it must be mailed to the CDE. Additionally, the LEA must submit periodic expenditure reports to receive funds. **Note: The Federal Mental Health funds are restricted to services as provided on a student's IEP.**

We confirmed with the CDE that Member LEAs should expect an Advance Principal Apportionment from the CDE for Resource 6546. **Note: The State Mental Health funds can be used for services for students with or without an IEP.**

For more information on these funds:

- Federal Mental Health information can be found [here](#).
- State Mental Health information can be [here](#).

Feel free to contact me with any questions or concerns at ccoleman@edcoe.org.

Respectfully,

Calli R. Coleman
